PREFACE

This chronology was prepared in response to a need for research data chronicling Sino-Soviet competition in the Pacific region. It covers events reflecting such rivalry for the years 1976 through 1978 in four countries of East Asia: Japan, the Democratic Republic of Korea, the Republic of Korea, and the Socialist Republic of Vietnam.

All information in this chronology has been derived from open sources available in the Library of Congress. Entries are arranged chronologically, rather than by country, to trace the sequential development of major occurrences and the interplay of Sino-Soviet rivalry in the region.
